MEETING 3/8/2023

#### **DISCUSSION/ACTION ITEMS**

C. Adoption of KYA Services, LLC, California Multiple Award Schedule, CMAS Number 4-20-78-0089C

**Background:** In your tab is the California Department of General Services, State of California, Multiple Award Schedule, KYA Services, LLC, CMAS Number 4-20-78-0089C for use as needed for the purchase, warranty, installation, maintenance, and repair of park and playground equipment with the same advantages, terms, and conditions per Public Contract Code 20118. The contract is effective February 26, 2020, through February 10, 2025.

The District has the authority to utilize other public agency bids when it is deemed to be in the best interest of the District. It is advantageous and they often provide lower prices than we would be able to obtain as a single agency. The practice is to ride on legal bids/contracts of other agencies, JPA's, cities, and counties, wherein it has been determined that such utilization shall be in the best interest of the District in securing necessary goods and services at the best available pricing structure.

The ability to utilize these bids/contract saves the District time and money when making purchases, as the processing time of creating and awarding a bid can take months. The savings translates into the ability to provide more funding for other District needs.

**Recommendation:** Adopt KYA Services, LLC, California Multiple Award Schedule, CMAS Number 4-21-78-0089C.

Order limits for the purchase of goods and/or services is determined by the individual agency purchasing authority threshold.

No CMAS order may be executed by a State agency that exceeds that agency's purchasing authority threshold. State agencies with approved purchasing authority, along with their dollar thresholds can be obtained at the List of State Departments with Approved Purchasing Authority website (www.dgs.ca.gov/PD/Resources/Page-Content/Procurement-Division-Resources-List-Folder/List-of-State-Departments-with-Approved-Purchasing-Authority).

#### **HOW TO USE CMAS**

Agencies must adhere to the detailed requirements in the State Contracting Manual (SCM) when using CMAS. The requirements for the following bullets are in the SCM, Volume 2, Chapter 6 (for non-IT), the SCM, Volume 3, Chapter 6 (for IT), and the SCM, Volume FISCAL, Chapter 5 (FISCAL):

- Develop a Request for Offer, which includes a Scope of Work (SOW), and Bidder Declaration form. For information on the Bidder Declaration requirements, see the SCM, Volume 2, Section 3.5.7 and Volume 3, Section 3.4.7.
- <u>Search for potential CMAS contractors</u> on the CMAS website (www.dgs.ca.gov/PD/About/Page-Content/PD-Branch-Intro-Accordion-List/Acquisitions/California-Multiple-Award-Schedules) and select "Find a CMAS Contractor."
- Solicit offers from a minimum of 3 CMAS contractors including one small business and/or DVBE, if available, who are authorized to sell the products and/or services needed.
- If soliciting offers from a certified DVBE, include the Disabled Veteran Business Enterprise Declarations form (Standard 843) in the Request for Offer. This declaration must be completed and returned by the DVBE prime contractor and/or any DVBE subcontractors. (See the SCM Volumes 2, 3, and FISCAL, Chapter 3).
- This is not a bid transaction, so the small business preference, DVBE incentives, protest language, intents to award, evaluation criteria, advertising, etc., are not applicable.

- If less than 3 offers are received, State agencies must document their file with the reasons why the other suppliers solicited did not respond with an offer.
- Assess the offers received using best value methodology, with cost as one of the criteria.
- Issue a Purchase Order to the selected CMAS contractor.
- For CMAS transactions under \$10,000, only one offer is required if the State agency can establish and document that the price is fair and reasonable. The fair and reasonable method can only be used for non-customizable purchases.

Local governments set their own order limits, and are not bound by the order limits on the cover page of this CMAS.

#### **SPLITTING ORDERS**

Splitting orders to avoid any monetary limitations is prohibited.

Do not circumvent normal procurement methods by splitting purchases into a series of delegated purchase orders, per Public Contract Code (PCC) § 10329.

Splitting a project into small projects to avoid either fiscal or procedural controls is prohibited, per State Administrative Manual (SAM) § 4819.34.

#### MINIMUM ORDER LIMITATION

The minimum dollar value of an order to be issued under this CMAS is \$2,500.00.

#### ORDERING PROCEDURES

#### 1. Purchase Orders

All Ordering Agency purchase order documents executed under this CMAS must contain the applicable CMAS number as show on page 1.

#### 1. State Departments:

Standard 65 Purchase Documents – State departments not transacting in FI\$Cal must use the Purchasing Authority Purchase Order (Standard 65) for purchase execution. An electronic version of the Standard 65 is available at the DGS-PD website (www.dgsapps.dgs.ca.gov/osp/Statewid eFormsWeb/Forms.aspx), select Standard STD Forms.

<u>FISCAL Purchase Documents</u> – State departments transacting in FISCAL will follow the FISCAL procurement and contracting procedures.

#### Local Governmental Departments:

Local governmental agencies may use their own purchase document for purchase execution.

The agency is required to complete and distribute the purchase order. For services, the agency shall modify the information contained on the order to include the service period (start and end date), and the monthly cost (or other intermittent cost), and any other information pertinent to the services being provided. The cost for each line item should be included in the order, not just system totals.

The contractor must immediately reject purchase orders that are not accurate. Discrepancies are to be negotiated and incorporated into the purchase order prior to the products and services being delivered.

## 2. Service and Delivery after CMAS Expiration

The purchase order must be issued before the CMAS expires. However, delivery of the products or completion of the services may be after the CMAS expires (unless otherwise specifically stated in the purchase order).

### 3. Multiple CMAS Agreements on a Single Purchase Order

Agencies wishing to include multiple CMAS(s) on a single FISCAL purchase order must adhere to the following guidelines:

- All CMAS must be for the same CMAS contractor.
- The purchase order must go to one contractor location.
- Write the word "CMAS" in the space usually reserved for the contract number. On Standard 65's, this is at the top of the form. The word "CMAS" signifies that the purchase order contains items from multiple CMAS agreements. The purchasing agency may only use one bill code.

- For each individual CMAS (as
  differentiated by alpha suffix), the
  agency must identify and group together
  the CMAS number with the line items
  and subtotal per CMAS number (do not
  include tax in the subtotal), and
  sequentially identify each individual
  CMAS as Sub #1, Sub #2, Sub #3, etc.
  This facilitates accurate billing of
  administrative fees by the Procurement
  Division.
- The total of all items on the purchase order must not exceed the purchase order limit identified in the CMAS.
- Do not combine items from both non-IT and Information Technology CMAS(s).
   A non-IT CMAS begin with the number "4" and an Information Technology CMAS begins with the number "3." The purchase order limits are different for these two types of CMAS agreements.

## 4. Amendments to Agency's Purchase Orders

Agency purchase orders cannot be amended if the CMAS has expired.

The SCM, Volumes 2 & 3, Chapter 6.A5.0 and SCM, Volume FISCAL, Chapter 5.A4.0 provides the following direction regarding amendments to all types of CMAS purchase orders:

Original orders, which include options for changes (e.g., quantity or time), that were evaluated and considered in the selection for award during the RFO process, may be amended consistent with the terms of the original order, provided that the original order allowed for amendments. If the original order did not evaluate options, then amendments are not allowed unless an NCB is approved for those amendments.

Amendments unique to non-IT services are covered in the SCM, Volume 2, Chapter 6.B2.9 and SCM, Volume FISCAL, Chapter 5.A4.1 as follows:

If the original contract permitted amendments, but did not specify the changes (e.g., quantity or time), it may be amended, per Public Contract Code (PCC) § 10335 (d)(1). This only applies to the first amendment. The time shall not exceed one year, or add not more than 30% of the original order value and may not exceed \$250,000. If the original contract did not have language permitting amendments, the NCB process must be followed.

Also, see the SCM, Volumes 2 & 3, Chapter 8, Topic 6, for more information on amending purchase orders.

## CMAS CONTRACTOR OWNERSHIP INFORMATION

KYA Services, LLC is a large business enterprise.

## SMALL BUSINESS MUST BE CONSIDERED

Prior to placing orders under the CMAS program, State agencies shall whenever practicable first consider offers from small businesses that have established CMAS [Government Code (GC) § 14846(b)]. NOTE: The Department of General Services auditors will request substantiation of compliance with this requirement when agency files are reviewed.

## CMAS Small Business and Disabled Veteran Partners lists

(www.dgs.ca.gov/PD/About/Page-Content/PD-Branch-Intro-Accordion-List/Acquisitions/California-Multiple-Award-Schedules) can be found on the CMAS website by selecting "Find a CMAS Contractor".

In response to our commitment to increase participation by small businesses, the Department of General Services waives the administrative fee (a fee currently charged to customer agencies to support the CMAS program) for orders to certified small business enterprises.

See the current fees in the <u>DGS Price Book</u> at: www.dgs.ca.gov/OFS/Price-Book.

#### SMALL BUSINESS/DVBE - TRACKING

State agencies are able to claim subcontracting dollars towards their small business or DVBE goals whenever the CMAS contractor subcontracts a commercially useful function to a certified small business or DVBE. The CMAS contractor will provide the ordering agency with the name of the small business or DVBE used and the dollar amount the ordering agency can apply towards its small business or DVBE goal.

## SMALL BUSINESS/DVBE - SUBCONTRACTING

 The amount an ordering agency can claim towards achieving its small business or DVBE goals is the dollar amount of the subcontract award made by the CMAS contractor to each small business or DVBE.

- 2. The CMAS contractor will provide an ordering agency with the following information at the time the order is quoted:
  - a. The CMAS contractor will state that, as the prime contractor, it shall be responsible for the overall execution of the fulfillment of the order.
  - b. The CMAS contractor will indicate to the ordering agency how the order meets the small business or DVBE goal, as follows:
    - List the name of each company that is certified by the Office of Small Business and DVBE Services that it intends to subcontract a commercially useful function to; and
    - ii. Include the small business or DVBE certification number of each company listed, and attach a copy of each certification; and
    - iii. Indicate the dollar amount of each subcontract with a small business or DVBE that may be claimed by the ordering agency towards the small business or DVBE goal; and
    - iv. Indicate what commercially useful function the small business or DVBE subcontractor will be providing towards fulfillment of the order.
- The ordering agency's purchase order must be addressed to the prime Contractor, and the purchase order must reference the information provided by the prime Contractor as outlined above.

#### NEW EQUIPMENT REQUIRED

The State will procure new equipment. All equipment must be new (or warranted as newly manufactured) and the latest model in current production. Used, shopworn, demonstrator, prototype, or discontinued models are not acceptable.

Where Federal Energy Management Program (FEMP) standards are available, all State agencies shall purchase only those products that meet the recommended standards. All products displaying the Energy Star label meet the FEMP standards.

#### **SPECIAL MANUFACTURED GOODS**

Any CMAS for goods to be manufactured by the CMAS contractor specifically for the State and not suitable for sale to others may require progress payments.

For Non-IT goods CMAS, see the CMAS Non-IT Commodities Terms and Conditions, Provision 69, Progress Payments.

#### **PRODUCT INSTALLATION**

The CMAS contractor is fully responsible for all installation services performed under the CMAS. Product installations must be performed by manufacturer authorized personnel and meet manufacturer documented specifications.

The prime contractor, as well as any subcontractors, must hold any certifications and/or licenses required for the project.

#### TRADE-IN EQUIPMENT

Trade-ins at open market price may be considered. The product description and trade-in allowance must be identified on the purchase order.

Administrative Manual (SAM) § 3520 through 3520.6, Disposal of Personal Property and Surplus Personal Property, as applicable, when trade-ins are considered. A Property Survey Report, Standard 152, must be submitted for approval prior to disposition of any State-owned personal property, including general office furniture regardless of the acquisition value, or if the property was recorded or capitalized for accounting purposes.

Agencies are required to adhere to State

## STATE AGENCY BUY RECYCLED CAMPAIGN (SABRC)

State ordering agencies are required to report purchases made within the eleven product categories in the California Department of Resources Recycling and Recovery's State Agency Buy Recycled Campaign (SABRC) per Public Contract Code sections 12200-12217.

Contractor will be required to complete and return a <u>Recycled-Content Certification form</u> (www.calrecycle.ca.gov/contracts/forms) upon request by the state ordering agency.

## PUBLIC WORKS (INSTALLATION SERVICES ONLY)

A public works contract is defined as an agreement for "the erection, construction, alteration, repair, or improvement of any public structure, building, road, or other public improvement of any kind" in accordance with the Public Contract Code (PCC) § 1101. State agencies planning these types of projects need to review the SCM, Volume 1, Chapters 10 and 11 for applicable guidelines and regulations. Also, the Department of General Services (DGS), Real Estate Services Division (RESD) can be contacted at (916) 376-1748, if you have questions about these types of transactions.

Agency CMAS purchase orders may allow for public works installation only when it is incidental to the total purchase order amount.

Agencies are to ensure that the applicable laws and codes pertaining to the contractor and sub-contractor licensing, prevailing wage rates, bonding, labor code requirements, etc., are adhered to by the prime contractor as well as any sub-contractor during performance under the CMAS purchase order.

The bond amount for public works is not less than one hundred percent (100%) of the purchase order price.

NOTE: In accordance with Labor Code (LC) § 1773.2, the ordering agency is responsible for determining the appropriate craft, classification or type of worker needed for any contract for public works. Also, the agency is to specify the applicable prevailing wage rates as determined by the Director of the Department of Industrial Relations (DIR), In lieu of specifying the prevailing wage rates. the agency may include a statement on the order that the prevailing wage rates are on file at the agency's office, and will be made available upon request. The prevailing wage rates are available from the DIR at www.dir.ca.gov (select Statistics & Research) or (415) 703-4774.

**Bonds**: For guidelines, see CMAS, General Terms and Conditions, Public Works Requirements.

State Contractor's License: Public works services can be obtained through CMAS only if incidental to the overall purchase order. If incidental public works services are included in the purchase order, prior to issuing the order agencies should contact the <a href="State">State</a> Contractor's License Board (www.cslb.ca.gov) at 1-800-321-2752 or at www.cslb.ca.gov to verify that the Contractor's License shown below is still active and in good standing.

KYA Services, LLC's California Contractor's License number is 984827. This is a Class C15, D61 license that is valid through 6/30/2021.

#### **BUY CLEAN CALIFORNIA ACT**

Per Management Memo 20-01, beginning January 1, 2020, awarding authorities will request successful bidders for public works contracts to submit current facility-specific Environmental Product Declarations (EPDs) for all eligible materials.

Awarding authorities are those identified in PCC § 3501 (a) and state agencies granted authority to work on public works projects under MM 18-01. Eligible materials subject to the EPD requirement are structural steel, carbon steel rebar, flat glass, and mineral wool board insulation.

Project bid specifications must require that facility-specific EPDs are compliant to ISO 14025 and applicable product category rules located on the Department of General Services (DGS) Buy Clean California Act website.

Awarding authorities must report the following information to DGS upon request:

- Awarded contract information
- Eligible materials used in project(s)
- EPDs submitted by successful bidder(s)

The Department of General Services <u>Buy</u> <u>Clean California Act</u> website is located at www.dgs.ca.gov/PD/Resources/Page-Content/Procurement-Division-Resources-List-Folder/Buy-Clean-California-Act.

#### NOT SPECIFICALLY PRICED (NSP) ITEMS

The only time that open market/incidental, nonschedule items may be included in a CMAS order is when they fall under the parameters of the Not Specifically Priced (NSP) Items provision.

CMAS contractors must be authorized providers of the hardware, software and/<u>or</u> services they offer under the Not Specifically Priced (NSP) Items provision.

Agency and CMAS contractor use of the NSP provision is subject to the following requirements:

- 1. Purchase orders containing only NSP items are prohibited.
- A purchase order containing NSP items may be issued only if it results in the lowest overall alternative to the State.
- NSP items shall be clearly identified in the order. Any product or service already specifically priced and included in the base contract may not be identified as an NSP item.

- 4. NSP Installation Services: The CMAS contractor is fully responsible for all installation services performed under the CMAS. Product installations must be performed by manufacturer authorized personnel and meet manufacturer documented specifications. The prime contractor, as well as any subcontractors, must hold any certifications and/or licenses required for the project. The total dollar value of all installation services included in the purchase order cannot exceed the dollar value of the products included in the purchase order, nor can they exceed the NSP Maximum Order Limitation.
- 5. Maximum Order Limitation: For orders \$250,000, or less, the total dollar value of all NSP items included in a purchase order shall not exceed \$5,000. For orders exceeding \$250,000, and at the option of the contractor, the total dollar value of all NSP items in a purchase order shall not exceed 5% of the total cost of the order, or \$25,000 whichever is lower.
- An NSP item included in an order issued against a CMAS is subject to all of the terms and conditions set forth in the contract.
- 7. Trade-ins, upgrades, involving the swapping of boards, are permissible, where the contract makes specific provisions for this action. In those instances where it is permitted, the purchase order must include the replacement item and a notation that the purchase involves the swapping of a board.

The following NSP items ARE SPECIFICALLY EXCLUDED from any order issued under this CMAS:

- 1. Items not intended for use in directly supporting the priced items included in the same order. An NSP item must be subordinate to the specifically priced item that it is supporting. For example, a cable, which is not otherwise specifically priced in the base contract, is subordinate to a specifically priced printer or facsimile machine, and is eligible to be an NSP item subject to that cable meeting the remaining NSP requirements. However, a printer or facsimile machine, which is not otherwise specifically priced in the base contract, is not subordinate to a specifically priced cable, and is not eligible to be an NSP item.
- Supply type items, except for the minimum amount necessary to provide initial support to the priced items included in the same order.
- 3. Items that do not meet the Productive Use Requirements for information technology products, per the SCM, Volume 3, Chapter 2, Section 2.B6.2 and SCM, Volume FISCAL, Chapter 2, Section 2.E3.2.
- Any other item or class of items specifically excluded from the scope of this CMAS.
- 5. Public Works components NOT incidental to the total purchase order amount.
- Products or services the CMAS contractor is NOT factory authorized or otherwise certified or trained to provide.
- Follow-on consultant services that were previously recommended or suggested by the same CMAS contractor.

The CMAS contractor is required to reject purchase orders containing NSP items that do not conform to the above requirements. The CMAS contractor will promptly notify the agency issuing the non-conforming order of its non-acceptance and the reasons for its non-acceptance.

## STATE AND LOCAL GOVERNMENTS CAN USE CMAS

State and local government agency use of CMAS is optional. A local government is any city, county, city and county, district, or other local governmental body or corporation, including UC, CSU, K-12 schools and community colleges empowered to expend public funds. While the State makes this CMAS available, each local government agency should make its own determination whether the CMAS program is consistent with their procurement policies and regulations.

#### **UPDATES AND/OR CHANGES**

A CMAS amendment is not required for updates and/or changes once the update and/or change becomes effective for the federal GSA schedule, except as follows:

- A CMAS amendment is required when the CMAS is based on specific products and/or services from another contractor's multiple award contract and the contractor wants to add a new manufacturer's products and/or services.
- A CMAS amendment is required for new federal contract terms and conditions that constitute a material difference from existing contract terms and conditions. A material change has a potentially significant effect on the delivery, quantity or quality of items provided, the amount paid to the contractor or on the cost to the State.

A CMAS amendment is required to update and/or change terms and conditions and/or products and services based on a non-federal GSA multiple award contract.

## SELF-DELETING FEDERAL GSA TERMS AND CONDITIONS

Instructions, or terms and conditions that appear in the Special Items or other provisions of the federal GSA and apply to the purchase, license, or rental (as applicable) of products or services by the US Government in the United States, and/or to any overseas location shall be self-deleting. (Example: "Examinations of Records" provision).

Federal regulations and standards, such as Federal Acquisition Regulation (FAR), Federal Information Resources Management Regulation (FIRMR), Federal Information Processing Standards (FIPS), General Services Administration Regulation (GSAR), or Federal Installment Payment Agreement (FIPA) shall be self-deleting. Federal blanket orders and small order procedures are not applicable.

#### **ORDER OF PRECEDENCE**

The CMAS Terms and Conditions takes precedence if there is a conflict between the terms and conditions of the contractor's federal GSA, (or other multiple award contract), packaging, invoices, catalogs, brochures, technical data sheets or other documents (see CMAS Terms and Conditions, CONFLICT OF TERMS).

## APPLICABLE CODES, POLICIES AND GUIDELINES

All California codes, policies, and guidelines are applicable. THE USE OF CMAS DOES NOT REDUCE OR RELIEVE STATE AGENCIES OF THEIR RESPONSIBILITY TO MEET STATEWIDE REQUIREMENTS REGARDING CONTRACTING OR THE PROCUREMENT OF GOODS OR SERVICES. Most procurement and contract codes, policies, and guidelines are incorporated into CMAS agreements. Nonetheless, there is no guarantee that *every* possible requirement that pertains to all the different and unique State processes has been included.

#### **PAYMENTS AND INVOICES**

This CMAS contains quantity and prompt payment discounts. See the base GSA schedule for the specific percent of discount.

#### 1. Payment Terms

Payment terms for this CMAS are net 45 days.

Payment will be made in accordance with the provisions of the California Prompt Payment Act, Government Code (GC) § 927 et. seq. Unless expressly exempted by statute, the Act requires State agencies to pay properly submitted, undisputed invoices not more than 45 days after (1) the date of acceptance of goods or performance of services; or (2) receipt of an undisputed invoice, whichever is later.

#### 2. Payee Data Record (Standard 204)

State Agencies not transacting in FISCAL, must obtain a copy of the Payee Data Record (Standard 204) in order to process payments. State Ordering Agencies forward a copy of the Standard 204 to their accounting office(s). Without the Standard 204, payment may be unnecessarily delayed. State Agencies should contact the CMAS contractor for copies of the Payee Data Record.

#### 3. DGS Administrative and Incentive Fees

#### **Orders from State Agencies:**

The Department of General Services (DGS) will bill each State agency directly an administrative fee for use of CMAS. The administrative fee should NOT be included in the order total, nor remitted before an invoice is received from DGS. This administrative fee is waived for CMAS purchase orders issued to California certified small businesses.

See the current administrative fees in the DGS Price Book (www.dgs.ca.gov/OFS/Price-Book).

#### <u>Orders from Local Government</u> <u>Agencies:</u>

CMAS contractors, who are not California certified small businesses, are required to remit to the DGS an incentive fee equal to 1.25% of the total of all local government agency orders (excluding sales tax and freight) placed against their CMAS. The incentive fee is in lieu of local government agencies being billed the above referenced DGS administrative fee.

This incentive fee is waived for CMAS purchase orders issued to California certified small businesses.

The check covering this fee shall be made payable to the Department of General Services, CMAS Unit, and mailed to the CMAS Unit along with the applicable Quarterly Report. See the provision in this CMAS entitled "Contractor Quarterly Report Process" for information on when and where to send these checks and reports.

#### 4. Contractor Invoices

Unless otherwise stipulated, the CMAS contractor must send their invoices to the agency address set forth in the purchase order. Invoices shall be submitted in triplicate and shall include the following:

- CMAS number
- Agency purchase order number
- Agency Bill Code (State Only)
- Line item number
- Unit price
- Extended line item price
- Invoice total

State sales tax and/or use tax shall be itemized separately and added to each invoice as applicable.

The company name on the CMAS, purchase order and invoice must match or the State Controller's Office will not approve payment.

#### 5. Advance Payments

Advance payment is allowed for services only under limited, narrowly defined circumstances, e.g., between specific departments and certain types of non-profit organizations, or when paying another government agency (Government Code (GC) § 11256 – 11263 and 11019).

It is NOT acceptable to pay in advance, except software maintenance and license fees, which are considered a subscription and may be paid in advance if a provision addressing payment in advance is included in the purchase order.

Software warranty upgrades and extensions may also be paid for in advance, one time.

#### 6. Credit Card

KYA Services, LLC does not accept the State of California credit card (CAL-Card).

#### 7. Lease/Purchase Analysis

State agencies must complete a Lease/Purchase Analysis (LPA) to determine best value when contemplating a lease/rental, and retain a copy for future audit purposes (State Administrative Manual (SAM) § 3710).

For short-term rental equipment, the lease/purchase analysis must be approved by the Department of General Services, Office of legal Services.

The lease/purchase analysis for all other purchases must be approved by the Department of General Services, GS SMart State Financial Marketplace. Buyers may contact the GS SMart™ Administrator, Patrick Mullen by phone at (916) 375-4617 or via e-mail at patrick.mullen@dgs.ca.gov for further information.

#### 8. Leasing

The State reserves the right to select the form of payment for all procurements, be it either an outright purchase with payment rendered directly by the State, or a financing/lease-purchase or operating lease via the State Financial Marketplace (GS SMart and/or Lease SMart). If payment is via the financial marketplace, the Supplier will invoice the State and the State will approve the invoice and the selected Lender/Lessor for all product listed on the State's procurement document will pay the supplier on behalf of the State.

Buyers may contact the GS SMart™ Administrator, <u>Patrick Mullen</u> by phone at (916) 375-4617 or via e-mail at patrick.mullen@dgs.ca.gov for further information.

#### 9. Maintenance Tax

The California Department of Tax and Fee Administration has ruled that in accordance with Section 1546 of the Sales and Use Tax Regulations of the Business Taxes Law Guide, whenever optional maintenance contracts include consumable supplies, such supplies are subject to sales tax.

Generally, the State has two options:

 For agreements that provide for only maintenance services (i.e., the furnishing of labor and parts necessary to maintain equipment), the charges for the provision of maintenance services are not taxable.

2. For agreements that provide for both maintenance services and consumable supply items (i.e., toner, developer, and staples, for example), the provision of the consumable supplies is considered a taxable sale of tangible personal property. Therefore, State agencies awarding optional maintenance contracts are responsible for paying the applicable sales tax on the consumable supplies used during the performance period of the maintenance contract.

The Contractor will be required to itemize the consumables being taxed for State accounting purposes.

## CONTRACTOR QUARTERLY REPORT PROCESS

CMAS contractors are required to submit a detailed CMAS Business Activity Report on a quarterly basis to the CMAS Unit. See Attachment B for a copy of this form and instructions.

This report shall be mailed to:

Department of General Services Procurement Division – CMAS Unit Attention: Quarterly Report Processing PO Box 989052, MS #2-202 West Sacramento, CA 95798-9052

Reports that include checks for incentive fees must be mailed and shall not be e-mailed. All other reports may be e-mailed to the attention of Quarterly Report Processing as follows:

CMAS Unit E-Mail: cmas@dgs.ca.gov

For the full instructions on completing and submitting CMAS Quarterly Business Activity Reports, and a soft copy of a blank quarterly report form, go to the <u>CMAS website</u> (www.dgs.ca.gov/PD/About/Page-Content/PD-Branch-Intro-Accordion-List/Acquisitions/California-Multiple-Award-Schedules) and then select "File a CMAS Quarterly Report".

Important things to remember regarding CMAS Quarterly Business Activity Reports (referred to as "reports" below):

- A report is required for each CMAS, each quarter, even when no new purchase orders are received in the quarter.
- A separate report is required for each CMAS.
- Each purchase order must be reported only once in the quarter identified by the purchase order date, regardless of when the services were performed, the products were delivered, the invoice was sent, or the payment was received.
- Purchase orders from State and local government agencies must be separated on the report, as shown in the instructions.
- CMAS contractors must report the sales activity for all resellers listed on their CMAS.
- Any report that does not follow the required format or excludes required information will be deemed incomplete and returned to the CMAS contractor for corrections.
- Taxes and freight must not be included in the report.
- CMAS contractors must attach to their quarterly report a check covering the required incentive fee for all CMAS sales to local government agencies (see more information below).

 New CMAS agreements, renewals, extensions, and amendments will be approved only if the CMAS contractor has submitted all required quarterly reports and incentive fees.

CMAS Quarterly Business Activity Reports are due in the CMAS Unit within two weeks after the end of each quarter as shown below:

Quarter 1	Jan 1 to Mar 31	Due Apr 15
Quarter 2	Apr 1 to Jun 30	Due Jul 15
Quarter 3	Jul 1 to Sep 30	Due Oct 15
Quarter 4	Oct 1 to Dec 31	Due Jan 15

## CONTRACTOR QUARTERLY INCENTIVE FEES

CMAS contractors who are not California certified small businesses must remit to DGS an incentive fee equal to 1.25% of the total of all local government agency orders (excluding sales tax and freight) placed against their CMAS agreement(s). This incentive fee is in lieu of local government agencies being billed the above referenced DGS administrative fee.

CMAS contractors cannot charge local government agencies an additional 1.25% charge on a separate line item to cover the incentive fee. The CMAS contractor must include the 1.25% incentive fee in the price of the products or services offered, and the line item prices must not exceed the applicable base contract prices.

A local government agency is any city, county, district, or other local governmental body, including the California State University (CSU) and University of California (UC) systems, K-12 public schools and community colleges empowered to expend public funds.

This incentive fee is waived for CMAS purchase orders issued to California certified small businesses.

Ordering Instructions and Special Provisions

The check covering this fee shall be made payable to the Department of General Services, CMAS Unit, and mailed to the CMAS Unit along with the applicable Quarterly Report. See the provision in this CMAS entitled "Contractor Quarterly Report Process" for information on when and where to send these checks and reports.

## OBTAINING COPY OF ORIGINAL CMAS AND AMENDMENTS

A copy of a CMAS and amendments, if any, can be obtained at <u>Cal eProcure</u> (caleprocure.ca.gov). A complete CMAS consists of the following:

- CMAS cover pages (which includes the signature page, ordering instructions and special provisions, and any attachments or exhibits as prepared by the CMAS Unit)
- · CMAS Terms and Conditions.
- Federal GSA (or Non-GSA) terms and conditions
- Product/service listing and prices
- Amendments, if applicable.

It is important for the agency to confirm that the required products, services, and prices are included in the CMAS and are at or below base contract rates. To streamline substantiation that the needed items are in the base contract, the agencies should ask the CMAS contractor to identify the specific pages from the base contract that include the required products, services, and prices. Agencies should save these pages for their file documentation.

## CONTRACTORS ACTING AS FISCAL AGENTS ARE PROHIBITED

When a subcontractor ultimately provides all of the products or performs all of the services that a CMAS contractor has agreed to provide, and the prime contractor only handles the invoicing of expenditures, then the prime contractor's role becomes that of a fiscal agent because it is merely administrative in nature, and does not provide a Commercially Useful Function (CUF). It is unacceptable to use fiscal agents in this manner because the agency is paying unnecessary administrative costs.

#### AGENCY RESPONSIBILITY

Each agency is responsible for its own contracting program and purchasing decisions, including use of the CMAS program and associated outcomes.

This responsibility includes, but is not necessarily limited to, ensuring the necessity of the services, securing appropriate funding, complying with laws and policies, preparing the purchase order in a manner that safeguards the State's interests, obtaining required approvals, and documenting compliance with Government Code (GC) § 19130.b (3) for outsourcing services.

It is the responsibility of each agency to consult as applicable with their legal staff and contracting offices for advice depending upon the scope or complexity of the purchase order.

If you do not have legal services available to you within your agency, the DGS Office of Legal Services is available to provide services on a contractual basis.

#### **CONFLICT OF INTEREST**

Agencies must evaluate the proposed purchase order to determine if there are any potential conflict of interest issues. See the CMAS Terms and Conditions, Conflict of Interest, for more information.

#### FEDERAL DEBARMENT

When federal funds are being expended, the agency is required to obtain (retain in file) a signed "Federal Debarment" certification from the CMAS contractor before the purchase order is issued.

This certification is required by the regulations implementing Executive Order 12549, Debarment and Suspension, 29 CFR Part 98, Section 98.510, Participants; responsibilities. The regulations were published as Part VII of the May 26, 1988 Federal Register (pages 19160-19211).

#### **CONTRACTOR TRAVEL**

The Travel provision is not applicable to this CMAS.

## LIQUIDATED DAMAGES FOR LATE DELIVERY

The value of the liquidated damages cannot be a penalty, must be mutually agreed upon by agency and contractor and included in the purchase order to be applicable.

#### ACCEPTANCE TESTING CRITERIA

If the agency wants to include acceptance testing for all newly installed technology systems, and individual equipment, and machines which are added or field modified (modification of a machine from one model to another) after a successful performance period, the test criteria must be included in the purchase order to be applicable.

#### AMERICANS WITH DISABILITY ACT (ADA)

Section 504 of the Rehabilitation Act of 1973 as amended; Title VI and VII of the Civil Rights Act of 1964 as amended; Americans with Disabilities Act, 42 USC 12101; California Code of Regulations, Title 2, Title 22; California Government Code, Sections 11135, et seq.; and other federal and State laws, and Executive Orders prohibit discrimination. All programs, activities, employment opportunities, and services must be made available to all persons, including persons with disabilities. See Attachment A for Procurement Division's ADA Compliance Policy of Nondiscrimination on the Basis of Disability.

Individual government agencies are responsible for self-compliance with ADA regulations.

Contractor sponsored events must provide reasonable accommodations for persons with disabilities.

#### Information Regarding the Purchase and Installation of Floor Coverings

A contract for the purchase and installation of carpet and other floor coverings is a public works contract as defined in Section 1101 of the Public Contract Code and, as such, requires certain special conditions.

A state agency <u>may not</u> contract for the installation of carpet in a building (a capital improvement to the building) that is <u>not owned</u> by the state. Carpet in leased facilities must be provided by the lessor and is accounted for in the lease agreement and rate. Users should contact the building manager and or the building owner when carpet is required.

A supplier or installer of carpet must be licensed by the State Contractors' Licensing Board with a C-15 Flooring and Floor Covering license which is current and in good standing. The supplier must provide the license number and expiration date for themselves and for all subcontractors providing installation services. This information shall be provided by the supplier on the "Contractors' License Requirements" form (see attached Sample A), which must be attached to each resulting carpet order. A subcontractor is defined as anyone who will perform work, labor, or render services in an amount in excess of one-half of one percent of the total order. Each subcontractor's business address and the portion of work that each will perform shall also be included on this form.

If the contract amount exceeds \$5,000 (labor/installation costs), the supplier must furnish a payment bond (Std. 807 - see attached Sample B) prior to the commencement of performance. The payment bond shall be in a sum not less than one hundred percent (100%) of the contract price. A blank copy of the Std. 807 form shall be provided to the supplier. In addition, the awarding agency must notify the contractor that the contract is subject to state contractor nondiscrimination and compliance requirements (see paragraph 42 of the CMAS Terms and Conditions).

The prevailing wage requirements apply and a list of prevailing wage rates must be available for inspection. It is the ordering agency's responsibility to provide a copy of the prevailing wage rates to the contractor. The prevailing wage rates are available from the Department of Industrial Relations, Prevailing Wage Unit at www.dir.ca.gov (select Statistics & Research) or at (415) 703-4774.

Agencies should be aware that there are certain requirements that pertain to floor coverings included in the Americans with Disabilities Act of 1992 (ADA). Some of these requirements pertain to carpet pile height (not to exceed 1/2" in height), fastening exposed carpet edges to floor, and changes in floor level not to exceed 1/2" beveled. It is the responsibility of the agency to comply with these requirements. Detailed information relative to carpet installation and ADA requirements can be obtained from the State Architect, Access Compliance Unit, at (916) 445-7523.

#### Information Regarding the Purchase and Installation of Floor Coverings

Agencies should be aware that old flooring material (tiles, glues, cove base, etc.) may contain asbestos and could present significant problems in the removal of old flooring material and in the installation of new carpet. Users should determine the presence or absence of asbestos containing material in their existing flooring materials and act accordingly before placing orders for carpet.

It is strongly recommended that new carpet not be installed over existing carpet due to potential conflicts with the Americans with Disabilities Act, and various fire, health and safety codes.

The moisture content of the slab over which the carpet is to be installed must be within the limits allowed by the carpet manufacturer and/or glue manufacturer. The testing of slab moisture content can be performed by either the agency ordering the carpet or by the carpet supplier.

The agency should provide for a site inspection prior to issuing an order for the carpet desired and should use a checklist similar to the one attached (see attached Sample C). Additions, changes, modifications to the checklist should be made as necessary. The agency should inspect and monitor the progress of the installation to prevent problems.

The prime responsibility for contract performance rests with the contract holder. who shall be the primary contact point for problem resolution. This contract is structured such that the user may purchase carpet only or carpet installed from the supplier. In no case is the supplier allowed to deny installation of the carpet selected by any user for any location. Installation services may not exceed an amount equal to the cost of the carpet and, when identified, will be paid for in the cost of the CMAS order. Typically, the price schedule will contain pricing for "clean floor" (new) installation only. However, agencies may use the Not Specifically Priced (NSP) provision for "unclean floor" installation services, as well as products. The total dollar value of all installation services, on clean and/or unclean surfaces, using line item and/or NSP pricing, must not exceed 50% of the order's total value. Note that the maximum amount of each transaction placed under this award schedule by a State agency is \$100,000.

The cost of installation and any ancillary supplies/services is not included in the base price of the carpet and may be obtained from the price schedule if listed, or can otherwise be included via the NSP provision.

It is incumbent upon the user to identify whether the costs for installation and other requirements are fair and equitable. The following chart is provided to give an approximation of the costs for installation in several typical state locations.

- **5.2** <u>Possession.</u> Possession of the Property shall be delivered to Buyer by 5:00 p.m. on the Closing Date.

- **5.4** Termination of Agreement. The Agreement shall terminate if Escrow does not close by the Closing Date, unless the Agreement has been extended in writing by the Parties. Buyer may terminate this Agreement by providing written notice of termination to Seller in the time and manner specified Section 7. ### 6. <u>TITLE POLICY.</u>

- event later than ten (10) business days following Opening of Escrow, Seller shall furnish Buyer with a Preliminary Title Report ("PTR") issued through Commonwealth ("Title Company"), describing the state of title of the Property, together with copies of all exceptions and a map plotting all easements specified therein. Buyer shall notify Seller in writing ("Buyer's Title Notice") of Buyer's approval of all matters contained in the PTR or of any objections Buyer may have to title exceptions or other matters ("Disapproved Exceptions") contained in the PTR within thirty (30) calendar days of receiving the PTR. Buyer must accept any and all exceptions created by its own actions. If Buyer fails to deliver Buyer's Title Notice within said period, Buyer shall be conclusively deemed to have approved the PTR and all matters shown therein.
- (a) In the event Buyer delivers Buyer's Title Notice rejecting certain title matters contained in the PTR, Seller shall have a period of thirty (30) calendar days after receipt of Buyer's Title Notice in which to notify Buyer of Seller's election to either (i) agree to attempt to remove the Disapproved Exceptions prior to the Close of Escrow; or (ii) decline to remove any such Disapproved Exceptions ("Seller's Notice"). Seller's failure to deliver Seller's Notice within said thirty (30) calendar day period shall be deemed Seller's election to decline to remove the Disapproved Exceptions. If Seller notifies Buyer of its election to decline to remove the

Disapproved Exceptions, if Seller is deemed to have elected to decline to remove the Disapproved Exceptions, or if Seller is unable to remove the Disapproved Exceptions, Buyer may elect either to terminate this Agreement and the Escrow or to accept title to the Property subject to the Disapproved Exception(s). Buyer shall exercise such election by delivery of written notice to Seller and Escrow Holder within ten (10) calendar days following the earlier of (i) the date of written advice from Seller that such Disapproved Exception(s) cannot be removed; or (ii) the date Seller declines or is deemed to have declined to remove such Disapproved Exception(s).

- (b) Upon the issuance of any amendment or supplement to the PTR which adds additional exceptions, the foregoing right of review and approval shall also apply to said amendment or supplement, provided, however, that Buyer's initial period of review and approval or disapproval of any such additional exceptions shall be limited to ten (10) calendar days following receipt of notice of such additional exceptions. Notwithstanding the foregoing, Buyer's Title Notice and review period shall automatically terminate three (3) business days prior to Close of Escrow and Buyer's failure to tender Buyer's Title Notice to Seller shall be deemed Buyer's automatic and conclusive approval of the PTR.
- 6.2 <u>Title Policy</u>. At the Close of Escrow, the Title Company shall issue to Buyer an ALTA non-extended owner's policy of title insurance with title to the Property vested in Buyer, containing only such exceptions approved by Buyer as set forth above and any exceptions as a result of Buyer's actions (including Buyer's entry on the Property pursuant to Section 7). In the event Buyer requests extended coverage, Buyer shall, at Buyer's cost and expense, deliver an ALTA survey to the Title Company in a reasonable time prior to the Close of Escrow although any such extended coverage shall be at Buyer's sole cost and expense.

Seller's failure to provide Buyer with a complete copy of each document required to be delivered to Buyer pursuant to this Section shall automatically toll the Due Diligence Period (described in Section 7.1) one calendar day for each day that Seller fails to satisfy its obligations set forth in this Section.
- 7.3 <u>Scope of Due Diligence</u>. During the Due Diligence Period, Buyer, at Buyer's sole cost and expense, shall have the right to conduct such engineering, feasibility studies, soils tests, environmental studies and other investigations as Buyer in its sole discretion may desire, to permit Buyer to determine the suitability of the Property for Buyer's contemplated uses and to conduct such other review and investigation which Buyer deems appropriate to satisfy itself to acquire the Property. Buyer shall further have the right to make an examination of all permits, approvals and

governmental regulations which affect the Property, including zoning and land use issues and conditions imposed upon the Property by governmental agencies. As material consideration for this Agreement, Buyer shall deliver full copies of any and all reports it obtains to Seller at no cost or expense to Seller. Seller shall cooperate with Buyer to sign the application for the Site Plan submittal as an owner of record, if necessary, and cooperate with the processing of such Site Plan during the Due Diligence Period, provided that Buyer acknowledges that such cooperation is not a precommitment by Seller to approval of the Site Plan or approval with or without any particular conditions. Application and processing shall be at Buyer's sole cost.

**7.4** Entry for Investigation. During the Due Diligence Period, Seller grants to the Buyer, its agents, consultants and employees a limited license to enter upon the Property for the purpose of conducting non-invasive engineering surveys, investigations or other studies reasonably necessary to evaluate the condition of the Property, which studies, surveys, reports, investigations and tests shall be done at Buyer's sole cost and expense.

Buyer shall provide Seller with written notice prior to each entry of the date and time of intended entry. Without limiting the foregoing, prior to any entry to perform any invasive testing, Buyer shall give Seller written notice thereof, including the identity of the company or persons who will perform such testing and the proposed scope of the testing. If Buyer or its representatives take any sample from the Property in connection with any such approved testing, Buyer shall provide to Seller a portion of such sample being tested to allow Seller, if it so chooses, to perform its own testing at Seller's sole cost.

Buyer agrees to indemnify, and hold Seller and their respective officials, officers, employees, and agents free and harmless from and against any and all losses, damages (whether general, punitive or otherwise), liabilities, claims, causes of action (whether legal, equitable or

administrative), judgments, court costs and legal or other expenses (including reasonable attorneys' fees) ("Liabilities") which Seller may suffer or incur to the extent caused by Buyer's entry onto the Property or any act or omission by Buyer, any contractor, subcontractor or material supplier, engineer, architect or other person or entity acting by or under Buyer (on the Property, but excluding (a) Liabilities caused by Seller or any of its indemnitees; (b) Liabilities resulting from the mere discovery by Buyer of a pre-existing condition at, on or under the Property. This obligation shall survive the Closing or termination of this Agreement for any reason.

- 7.5 Approval of Due Diligence Matters. Buyer shall notify Seller in writing ("Buyer's Due Diligence Notice") on or before expiration of the Due Diligence Period of Buyer's approval or disapproval of the condition of the Property and Buyer's investigations with respect thereto (excluding title matters which are to be approved or disapproved pursuant to Section 6.1), which approval may be withheld in Buyer's sole and absolute discretion. Buyer's failure to deliver Buyer's Due Diligence Notice on or before expiration of the Due Diligence Period shall be conclusively deemed Buyer's approval thereof. Provided Buyer provides its disapproval notice prior to the expiration of the Expiration Date of the Due Diligence Period, such disapproval notice shall terminate this Agreement.
- 7.6 Natural Hazard Disclosure Requirement Compliance. Within five (5) days of Opening of Escrow, Escrow Holder shall order a commercial natural hazard disclosure report from Disclosure Source ("Natural Hazard Disclosure Report") to disclose if the Property lie within the following natural hazard areas or zones: (i) a special flood hazard area designated by the Federal Emergency Management Agency (California Civil Code Section 1102.17); (ii) an area of potential flooding (California Government Code Section 8589.4); (iii) a very high fire hazard severity zone (California Government Code Section 51183.5); (iv) a wild land area that may contain substantial forest fire risks and hazards (Public Resources Code Section 4136); (v) an earthquake fault zone (Public Resources Code Section 2621.9); or (vi) a seismic hazard zone (Public Resources Code Section 2694).
